

## 2015 NSF CAREER Presentation and Panel Discussion

On Thursday, May 7th from 1:30 - 3:00 pm in Natural Sciences II, Room 1201, UCI Research Development will be hosting a workshop for junior faculty, post-docs, and anyone interested in applying for or learning about the National Science Foundation (NSF) CAREER award/grant.

**Register Today:**

**[http://ps.uci.edu/2015\\_CAREER](http://ps.uci.edu/2015_CAREER)**

*Light refreshments will be provided*

The workshop will consist of a 30-minute general overview of the call, followed by a one-hour panel discussion with NSF program officers and recent UCI faculty NSF CAREER awardees, including:

**Eric Saltzman**

NSF Section Head for Arctic Sciences in the Division of Polar Programs, Geosciences Directorate and Professor of Earth System Science

**Bill Cooper**

NSF Program Director, Environmental Engineering Program and Professor of Civil & Environmental Engineering

**David Mobley**

Assistant Professor of Pharmaceutical Sciences and NSF CHE CAREER awardee

**Tim Rupert**

Assistant Professor of Mechanical & Aerospace Engineering and NSF DMR CAREER awardee

### About the NSF CAREER AWARD

The Faculty Early Career Development (CAREER) Program is the National Science Foundation's most prestigious award in support of junior faculty who exemplify the role of teacher-scholars through outstanding research, excellent education and the integration of education and research within the context of the mission of their organizations.

**Eligibility:** Any faculty member who holds a doctoral degree in a field supported by NSF by the application deadline, and is untenured until October 1 following the deadline. Faculty may apply up to three times during the assistant professor phase of their careers.

**Upcoming Deadlines:** July 21, 2015 (BIO, CISE, EHR); July 22, 2015 (ENG); July 23, 2015 (GEO, MPS, SBE)
